

hi!

**Let your neighbours know how much you love and appreciate them!**

Your neighbours might be people who live close to you, or just the people you see often (the pharmacist, your coworker, your swim instructor, etc.). Cut out the cards or shapes and write (or draw) them a note thanking them for what they do or the way they support you. How do their actions make your community more welcoming? In what ways is their presence a gift? Instead of signing the card, leave it blank. Let your neighbour enjoy the mystery of an anonymous note!
